TO: Muscogee (Creek) Citizens
SUBJECT: Endorsement of **LAHOMA SCHULTZ** for the position of Tulsa District Representative to the Muscogee (Creek) National Council

I feel honored and privileged to endorse the candidacy of **LAHOMA SCHULTZ** for the position of Tulsa District Representative to the Muscogee (Creek) National Council. Our friendship started when we both attended Northeastern State University in Tahlequah, OK in the early seventies where I watched her become a participant and advocate for Native American Student Organizations, Indian Organizations, and Tribal Governments.

Lahoma brings the kind of education, skills, and experience we need today in tribal government. She understands and performs as a “servant leader,” putting her people first over her own needs and wants. We need this kind of professional in our tribe, we should feel fortunate that we have a citizen with a Ph. Degree willing to step up and serve our tribe.

Her professional resume presents a beautiful picture of someone who has numerous awards for her achievements, accomplishments, and contributions to our society at-large. Throughout her professional career she has always reached out was willing to serve on various boards and committees serving Indian people.

Prior to her decision to run for office we had several visits and telephone conversations about the issues that need to be addressed by our National Council. After these discussions I became more convinced that she is offering the kind of leadership and cultural sensitivity that we need on our tribal council. Here critical thinking skills are amazing, she understands the economic, housing, employment, health, and community services goals that our tribe should be attacking.

As a former member of the National Council and a former two-timed tribal administrator, it is without hesitation that I submit this letter of endorsement to the tribal citizenry at large. Please consider her candidacy and vote for a positive change in our tribal government.

Best Regards,
Jerry Wilson
